

NEWS FROM NEAR-BY TOWNS

Desperate Battle Between Cattle and Sheepmen.

MUCH HARD FEELING

TROUBLES AT THE WYOMING PENITENTIARY.

Teachers For Wasatch Academy.—A visit to "Hell Hole," or the Old Spanish Mine in the Sawtooth Mountains, in the Western Part of Millard County.

FOSSIL, Ore., Aug. 1.—J. M. South, who arrived here yesterday from Canyon City, brings news of a desperate battle between sheep men and cattle men on Snow Mountain, southwest of Canyon City in Grant county, where South took place about a week ago. Mr. South was at Muddy station, when the Mitchell-Antelope stage driver brought word to Mr. O'Neill, manager of the Springfield Sheep and Land company, that Mr. Kichen, one of the company's employees, was one of three sheep men killed, two cattle men being also slain. Another of the sheep men killed was Ernest Sherar, a nephew of Joseph Sherar, a well-known wool grower and buyer. For years young Sherar has been buying and shipping sheep for his uncle, and on the occasion of the battle he, with several others, including Mr. Kichen, was driving a band of sheep across the country to the railroad, presumably to Huntington, for shipment. Many "sheep fights" have been reported this year which had no foundation, but the story of Mr. South is generally credited.

There has been hard feeling for a long time between the cattle and sheep men in that part of Oregon. Numerous disputes have taken place over the possession and use of the ranges, the cattle men asserting that the sheep drove the cattle from the ranges.

Teachers For Wasatch Academy.

Miss Lillian Allison, late of Illinois, who has been employed as teacher at Springfield, has arrived here and will take charge of the intermediate department of the Wasatch academy when it opens on the first Tuesday in September. The other teachers who will make the corps of educators for the coming year are G. E. Herron and Miss Mary Hemmingsway.

Mrs. A. L. Burnett has sent word that she did not desire to accept the trusteeship of the home, a new school will be appointed later. With the exception of Prof. Marshall this is a new corps of teachers for the academy, but all are highly recommended for their various grades of scholarship. The movement of pupils for the year of 1896-7 will soon begin, and a large attendance the coming season is assured.—Mt. Pleasant Pyramid.

The "Hell Hole."

Millard county has a number of curiosities in the way of petrifications, old craters, hot and cold springs and caves.

Last spring I had the opportunity of exploring one of the latter, and have been asked to describe it.

It is known as the "Hell Hole," or the Old Spanish Mine, and is located east of the Saw Tooth mountains, in the western part of the county, about three miles south of the Margin Pass road, and perhaps a mile from the foot of the hills. It is a large hole, a gently sloping plain, with no brush, stones or any other natural marks by which to distinguish the place, and it is not easily found. The hole cannot be more than 100 yards in diameter, and is close to it before we knew we had found the place we were looking for. As we came near and looked in, one of the party pronounced it the "Hell Hole," and I thought it very well named. It has a very treacherous appearance.

We had brought a cable and tackle and we rigged it to let a man down the middle of the shaft to avoid falling rocks. None of us cared to go down, so it fell to me, being the lightest, to make the descent. I took notes and measurements that show it to be 62 feet in diameter at the top, 30 feet below the surface the formation is coarse gravel, cemented together by lime. The sides slope in, so that at this depth the diameter is 50 feet. Here the formation changes. The gravel is sand and clay, and the lime with the gravel, making the earth looser, so the sides slope out for the next 40 feet, making the diameter at 60 feet below the surface 60 feet. Here the black sand and gravel is 10 feet. Immediately under this, very fine black and yellow sand, with some clay. Here the debris falling from the sides and the sand caving from the west side have formed a mound, filling the original shaft, and leaving another space to the west. One can climb or roll (as he wishes) from here to the end of the cave.

When at the bottom one can see the sky over about fifteen feet of the surface edge of the hole. Here one is 24 feet west of a line let fall from the west side, and 35 feet below the base of the east wall, making the perpendicular depth 112 feet.

There is quite a romantic story told by those who think it is the Old Spanish mine. Years ago, when Fillmore was young, the Mexicans used to come in from the west at intervals with gold dust to buy provisions.

There is an old Indian now living near Fillmore who has told of a pool of water on the south of Salt Lake, where the Mexicans brought the gold to wash. They packed it in every day from the north on burros. These Mexicans finally stole a squaw off the Indians, for which they either killed or drove off all the Mexicans, and none ever came back.

The Indians do not know where the mine is, but believe it was less than a mile's drive north of the hole. There are no water drains into the hole, and its origin is still a mystery.

Our party, consisting of Peter Huntsman, August Meyers and myself, were looking for the "gaining mine," and had "prospected" the hole. The best samples, when tested, showed a trace of gold.—Millard Progress.

Wyoming Penitentiary Troubles.

(Special to The Herald.)

CHEYENNE, Aug. 1.—A controversy between the heirs of James Marsh, late lessee of the Wyoming penitentiary, and the state authorities, was passed upon today by Attorney General Fowler, who rendered an opinion to the effect that the contract held by Marsh for the control of the penitentiary should not revert to his heirs. Marsh had a fifteen-year contract of great value, which after his death his heirs sought to retain. The attorney general states that the contract with Marsh was for his personal services and could not revert to his heirs without the approval of the state. During the controversy, the penitentiary affairs have been badly disturbed, a number of prisoners have escaped and there has been a number of unpleasant incidents made public in connection with its management.

THE CHICAGO RESTAURANT.

"Walter," said the scholarly looking

man in spectacles, glancing through the bill of fare, "it appears to be the central idea of this refectory that everything of an edible nature should be as Snappers says, 'stale and cheap to vulgar company.'"

"No, sir," replied the dignified servant, "but in adapting the cuisine of the establishment to the wants of its patrons the proprietors agree, with Professor Drummond, that what this world needs is the 'rejuvenescence of the commonplace.'"

The waiter was from Boston, 400—Chicago Tribune.

WAS SATISFACTORY.

NEW YORK, Aug. 1.—Thomas C. Platt and Edward Lauterbach were among the callers at the Republican headquarters today. Mr. Hohr was present and with these callers he and Mr. Hanna had a conference. At its conclusion Mr. Hanna announced that the interview had been most satisfactory. He said the Republican campaign here would be managed by the state and county organization under the direction of the national committee. The Democratic party, however, is in the hands of renovators to-day, work being rushed so that they may be ready for use on Monday.

DUPONT MEDAL.

GREAT INTEREST IN THE COMING TRAP EVENTS.

Two Sets of Automatic Traps and About 12,000 Live Birds Will Be Used.

CHICAGO, Aug. 1.—Never in the history of trapshooting has such interest been displayed as in the Dupont world's championship live bird tournament, which opens here next Monday morning. Shooters from all over the country are beginning to arrive. The shooting grounds at Burnside are in magnificent condition. All the available space not needed for shooting purposes is covered by club tents. The local clubs will do all the entertaining, each club taking care of from one to three shots.

The two big events will be the world's championship and the team race. In the latter, five men from any one state constitute a team, and great interest is manifested. The race takes place on Wednesday. Already several teams have been made up by admirers of the respective teams. Buffalo, Syracuse, Rochester, Eliza, Kansas City, St. Paul, New York, Detroit, Louisville, Des Moines, Dayton, Cincinnati, Cleveland, Toledo, Philadelphia, Indianapolis, Chattanooga, San Antonio, Houston and several other cities will be represented, with the flower of the country in wing shooting. Illinois will have 14 teams. There will be probably in the neighborhood of 100 entries for the world's individual championship. This race will be shot on Thursday. The shooting will continue during the entire week. Two sets of automatic traps and about 12,000 live birds will be used.

PEEK IS PERSONAL.

An Alleged Agreement Between Democrats and Populists.

ATLANTA, Ga., Aug. 1.—W. L. Peck, who ran for governor on the Populist ticket in 1892, and headed the Georgia delegation to St. Louis, made the following statement to the Atlanta Journal today:

"Conyers, Ga., Aug. 1, 1896. "To the Atlanta Journal: "It was understood with the Democrats that if the Populists would nominate Bryan for president and a southern Populist for vice-president, Sewall would retire from the race, or, in other words, (Sewall) would be taken down and our candidate for vice-president should be placed on the ticket with Bryan. With this understanding, Watson was unanimously nominated. Every state in the Union supported him except South Carolina, and it was not represented. This was the broad ground upon which the Democrats and Populists met. We were deceived by promises, we made it a certainty on our part and reversed the order of business and nominated the vice-president first."

"Senator Jones, chairman of the national Democratic committee, was there, together with many prominent Democrats from different parts of the country, urging the course, and the success of financial reform. We did not endorse Bryan, but made our platform and nominated him for president by over two-thirds vote. Mr. Watson's nomination was greeted with as long and loud outbursts of enthusiasm as was Mr. Bryan's, and I beg leave to say that now there is but one course to pursue if good faith is to govern this union of sister states. Watson's nomination must be put up by the Democratic party, from Maine to California. It would be a lack of fidelity to the party and to the cause of the people in Georgia it would be an unpardonable sin and unfaithfulness on the part of the Democratic party, and the people will hold them responsible for the result. WILLIAM L. PECK."

SIXTY MILES AN HOUR.

Velocity of the Wind at Cincinnati Yesterday—Much Damage Was Done.

CINCINNATI, Aug. 1.—A terrific wind, rain and hail storm, accompanied by blinding lightning, passed over this city this evening. The wind came from the west at the rate of 60 miles an hour, and in the city proper chimneys and buildings were blown down, and much minor damage was done. In the suburban districts the damage was more severe.

At Oakley the grand stand, club house and other buildings at the race track were wrecked. Several dwellings were unroofed.

At Cincinnati the breeze was blown from the Elmwood church, and a lively stable, a shoe store and several other buildings were blown down.

At Camp Washington the Eighteenth regiment school house was wrecked, and the roofs were blown off the Cincinnati abattoir, the Davis Packing company's building and the Specialty Carriage company's building, and two dwellings were blown down and four dwellings unroofed.

In Avondale, Hoffman's tannery, Cook's carriage works and one wing of the Cincinnati hospital were unroofed. Edw. and John's saw mill, near the river, were struck by lightning and are in a precarious condition. Charles Ranbo was killed at Avondale in attempting to throw a live telegraph wire out of his doorway.

TWO NEGROES LYNCHED.

ST. LOUIS, Aug. 1.—A special to the Republic from Selma, Ala., says:

Two negroes who attempted to assassinate Colonel C. D. Hunter at his country house two weeks ago, were lynched near the scene of their crime last night. The bodies were found swinging from a bridge tower, pierced with many bullets. The negroes, which they suffered death was a startling one.

COOLER IN ST. LOUIS.

ST. LOUIS, Aug. 1.—As a result of the slightly colder weather there was a slight diminution in the number of prisoners. Only eight cases were reported at the city hospital. The death rate showed a pleasing falling off and only one patient at the city hospital died. He was James Lyons, who was overcome by the heat at his home Friday night.

JOE BRINKER RESIGNS

As Assistant General Freight Agent of the Western.

HIS SUCCESSOR NOT NAMED

CHIEF CLERK CUSHING MAY BE THE MAN.

The Indications Now Are That the Threatened War Over the Fire Chiefs' Convention Rates Will Be Averted—At the Lake Resorts—Railway Notes.

Joseph Brinker is no longer assistant general freight agent of the Rio Grande Western.

He sent in his resignation on Friday, but the fact that he had severed his connection with the road only came out yesterday.

The causes that led to this action are not definitely known, as the parties interested have no explanations to make, but it is said on the outside that Mr. Brinker did not get along with entire harmony with his chief, General Freight Agent E. H. Halm.

Mr. Brinker has been connected with the Western for many years and when Mr. Halm went in under Traffic Manager Babcock, assumed the position which he has since vacated, and which he had held since 1892.

Mr. Brinker is a capital railroad man, popular with his associates and with all with whom he has business relations. To a Herald reporter he stated yesterday that he had not yet decided as to his future course, further than that he would continue to reside in Salt Lake.

No announcement has been made as to who will fill the vacancy, and it is likely that nothing will be done in the matter for some time, but Chief Clerk Cushing is talked of for the position.

FIRE CHIEFS' RATE.

Believed That the Threatened War Will Be Averted.

CHICAGO, Aug. 1.—Officers of the Western Passenger association are making vigorous efforts to prevent scalping of the cheap rate tickets to be put on sale in this city next Thursday. The chairman of this organization gave the following statement to the press today:

"An understanding has now been reached with regard to the fire chiefs' meeting at Salt Lake city, whereby the special reduced rate of \$39 from Chicago and \$27 from St. Louis will be used as a selling rate only.

Steps will be taken whereby the chairman of the association, instead of all tickets sold for this occasion, so that any tickets which may be purchased by brokers and transferred from the original purchasers will be refused for passage."

AT BEAUTIFUL SALT LAKE.

Last Concerts By the Peerless K. of P. Band Today.

This afternoon and evening the splendid K. of P. band will give its last concert before leaving for Denver to take part in the Exposition. The program for the evening was promised, the program for these closing concerts is the finest yet given by the organization and is as follows: March, "Ananias," Victor Herbert; Selection, "Queen of the Night," Kercher; "Surprise Symphony," Haydn; "Three Dances—(a) Morris Dance, (b) Shipboard Dance, (c) Henry Dorch; "From the music to Henry VIII," Overture, "Raymond," Thomas; "Polka, "Martina," Plotow; "Fantasia," American Republics; "Thiele."

"Contest pieces for the Denver Elated."

AT GARFIELD.

Concert By the Mikado Company This Evening—Bookings.

This evening the "Mikado" company will close its engagement at Garfield by giving the company, for with a grand concert. The programme is one that will please all.

Several of the company have so far been booked for August 1st.

August 4—Young Recruits' band.

August 5—Tenth Ward Sunday school.

August 6—Twelfth and Sugar House wards.

August 7—Utah Sunday School association.

August 8—O. O. F.

August 9—Bright ward.

August 11—Salt Lake county Sunday schools.

August 12—Visiting and local firemen.

August 13—German day.

August 15—Choral societies, Utah and Junb counties.

August 18—Y. M. C. A., Salt Lake.

August 19—O. O. U. W.

August 20—Twentieth ward M. I. A.

Good Time Made.

WASHINGTON, Aug. 1.—The navy department some time ago ordered 190 men of the cruiser Charleston, Mare Island, California, to be sent to the navy yard at Norfolk to learn the least possible time in which crews could be transferred across the continent. The men have arrived at Norfolk, making the trip by special train in four days and a night, and were met by a record breaker. The route was over the Southern Pacific and Seaboard air line.

For Foreclosure.

WICHITA, Kan., Aug. 1.—A bill for foreclosure on a Kansas Millard railroad, a feeder of the St. Louis & San Francisco, has been filed in the United States circuit court here, together with an order from Judge Caldwell, appointing A. A. Wolf, of St. Louis receiver. Suit is brought by the Mercantile Trust company of New York as trustee for the first mortgage bonds, amounting to \$1,000,000. The Kansas Millard extends from Wichita to Ellsworth, 196 miles.

A New Line.

DENVER, Colo., Aug. 1.—Word was received at the office of the Gulf road today that the North German Lloyd steamship company would establish a line of freight and passenger ships between Galveston and Bremen, Germany. The first two ships of the line will be of 4,000 and 3,500 tons register and equal to all but the first class Atlantic liners. The rates for freight and passengers will be lower than from North Atlantic ports.

Had a Big Crowd.

The "Mikado" at Garfield finished up last night and there was a large and much interested crowd which filled the pavilion to listen to it. The performance infused more spirit into the music than ever before, and the numbers were never more palatable. Miss Trux—charming at all times—was delightful last evening. Her song, "The Sun and I," was heard with enthusiasm and came very near being the gem of the evening. Miss Howard was very graceful and sweet, especially in her first song, "Hill going to marry Yum-Yum." Miss Howard, who is really Mrs. Jessy, takes the train this morning for Salt Lake, where she will be with the Pearson company at Butte. Miss Trux goes east next Thursday to join John Stinson, who was overcome by the heat at his home Friday night.

Cooper gave a good rendition of the difficult part of Katsiba. Tom Ashworth and Denney Richards were up to their usual standard and Denney was up in the sky with more funny things than ever. The ladies of the chorus have done excellently well through the engagement.

Messrs. Blakemore and Norris have arranged to give a production of the opera "The Grand Duke" next Wednesday evening, which will no doubt be quite acceptable to a large number who have not been able to go out to Garfield to see and hear it.

A very pleasant affair, "not down on the hill," was a Sunday report furnished by Mrs. G. C. Richards and Mrs. Dean, to which the members were all invited in the afternoon. It is needless to say that the affair was a success, but the "airy perillage" and small talk accompanying an affair of this kind, taken all in all, the "Mikado" at Garfield has given very much pleasure to the general public.

Society at Salt Lake. Society went en masse to Salt Lake last night and enjoyed a most perfect evening. The bathing was fine, the music excellent and the sunset superb.

The mammoth statue of Erich in course of construction for the "Carnival of Madrid," is almost completed and is large enough to accommodate a small army. The scenery is almost finished for this production and is said to be beautiful in the extreme.

The carnival will run for eight nights and a thousand dollars in fire works will be burned each night, including what will be a thirty-five picture of our next president, William J. Bryan.

It's Cool Now.

CHICAGO, Aug. 1.—The warring freight officers of the western roads have turned their attention from grain to hard coal, and a big tumble in rates on the latter commodity from Chicago to the west is threatened. For some time past, the major portion of the hard coal shipments from the east have been going around Chicago via Peoria and the smaller towns to the south. The Iowa Central, in connection with the Erie & Western, and other eastern roads into Peoria, has captured the bulk of this traffic for western points. The Chicago & Great Western has resolved to get a share of the business and today announced that next Monday it would cut 2 1/2 cents per ton off the rates from Chicago to Hampton, Marshall, Council Bluffs and Junction City. Corresponding reductions will be made to other Iowa points.

A Big Suit.

SYRACUSE, N. Y., Aug. 1.—An important motion in the \$100,000 motion brought by the state against the Armour & Co. and the Armour company for violation of the oleomargarine law was before Justice Peter B. McLenahan in the special term here today. The motion was upon an order to show cause why the state should not be allowed to direct as many officials to produce their books before the referees should not be vacated. General Benjamin F. Tracey and Frank H. Platt of New York and Attorney Custer of Chicago appeared for the Armour company. The motion was opposed by Senator Joseph Mullin and Attorney-General Theodore H. Cook. The state claims that the books of the four big railroad corporations, and several other companies of butterine and other facts which they are anxious to get at.

General Tracey, who made the principal argument for the motion, took the opportunity to state that he had no right to examine third parties. Justice McLenahan allowed until September 1 in which to file briefs.

Railway Notes.

Tomorrow will be young ladies' day at Salt Lake.

Agent Corse of the Union Pacific is down from Ogden.

A large party left for Soda Springs last evening over the U. P.

The great "Carnival of Madrid" opens at Salt Lake next Sunday evening.

H. A. Code, Union Pacific baggage agent at Ogden, was in town yesterday.

The business at Garfield this season shows a marked improvement over last year.

It looks now as though the rate war over the fire chiefs' convention might be averted.

A party of excursionists, including eleven prominent Denver people, will leave here for Yellowstone park on August 5.

BEAUTIFUL SALT LAKE.

"What Are the Wild Waves Saying?" They say that the K. of P. band will give two grand concerts at Salt Lake today.

OLD CONCERN BUSTS.

Columbia Buggy Company Goes to the Wall.

COLUMBUS, O., Aug. 1.—The business world of this city was shocked today by the announcement that the Columbia Buggy company, one of the oldest concerns of the city, had made an assignment at 1 o'clock this afternoon.

In the statement sent out, the cause of the assignment is given as due to the general business depression, slow sales and collections, a curtailment of the company's line of credit, numerous failures among their customers and the inability of the company to meet their obligations at maturity. The assignee are William A. Miles and John M. Thomas, two employees of the company, who are entirely familiar with the property and business workings of the company.

The Columbia Buggy company is one of the oldest concerns in the city and was organized as a partnership in 1876. George M. Peters and Clinton D. Firestone are the two surviving members of the original firm. It was employing 1,000 men when running full force and about 600 were at work at the time the failure occurred. The firm had branch houses in a dozen of the leading cities of the country and was one of the largest and foremost buggy companies of the country. No statement of assets and liabilities has been made but they will approach nearly \$1,000,000.

THE PUBLIC DEBT.

WASHINGTON, Aug. 1.—The treasury statement of the public debt issued today shows that the public debt, less cash in the treasury at the close of the month, to have been \$968,154,512; increase for the month \$10,859,383. The carrying debt, \$487,864,593; debt on which interest has ceased to mature, \$373,315,955; total, \$1,222,312,947; which does not include \$555,219,373 in certificates and treasury notes, offset by an equal amount of cash in the treasury.

The treasury cash is classified as follows: Gold, \$159,992,224; silver, \$141,619,146; paper, \$168,378,190; bonds, \$1,000,000,000; total, \$1,470,000,000. The public debt is classified as follows: Interest-bearing debt, \$487,864,593; debt on which interest has ceased to mature, \$373,315,955; total, \$1,222,312,947; which does not include \$555,219,373 in certificates and treasury notes, offset by an equal amount of cash in the treasury.

KILLED BY A HOG.

FAYETTEVILLE, Ark., Aug. 1.—In Benton county Mrs. Mary Smith, wife of a farmer, became alarmed at the absence of her 10-year-old daughter and started out to look for her. She was followed by her children, infant twins, and a boy aged 4, playing in the yard. During her absence a vicious hog attacked the twins and killed them. The little boy tried to keep the swine away and was fatally bitten.

"CYCLONE" IS HAPPY.

ST. LOUIS, Mo., Aug. 1.—A special to the Republic from Texarkana, Ark., says: "Cyclone" Davis, the People's party leader, was today nominated for congress for the second time by the Fourth Texas district to succeed Hon. D. B. Culbertson.

BEAUTIFUL SALT LAKE.

Two grand concerts, K. of P. band at Salt Lake today at 4:45 and 7:30 p. m. Don't miss it.

ANYTHING CAN BE REPAIRED AT MY SHOPS.

I employ none but the most experienced mechanics, who are experts at repairing typewriters and bicycles, and can repair anything that is broken. My shops are located at the corner of Twenty-fourth street and Grant avenue.

Ogden, August 2.

COUNTY TEACHERS' INSTITUTE.

The Teachers' Institute has come to a close. The two weeks' work has been most enjoyable, and the last session was an interesting one. Professor Stewart occupied the entire time, dividing his time between the subjects, "School Management" and the "Theory of Ethics."

The management of a school rests upon two factors; sympathy and an orderly expression of that sympathy. The one is the thought, the other the expression. We must not cling to either or our school will be a failure. We may have everything moving in machine-like order, and still make a miserable failure, because the internal sympathy is lacking. The school is an organic whole, and when one is affected the whole is affected. A moral influence must be exerted to aid in government.

The teacher must be an example of neatness and taste. The school building and grounds must be properly cared for to exert a moral influence. The professor gave a suggestive outline of the recitation, the important part of the school, and condemned the incentives sometimes used as immoral.

Mr. Stewart waxed exceedingly energetic in his theory of ethics. He said that a school is a social being, and is independent of its fellows. The highest duty a man owes is to his fellows. There are two schools of moral philosophy. The one employs artificial stimulation, the other says every act has its result, which is an influence upon all. We cannot live alone; we must take some one with us. There are three theories in regard to virtue: First, the theory of sensualism, or hedonism, in which virtue is based upon pleasure. Second, the utilitarian theory, which says that is right which affords the greatest good to the greatest number. Third, that which is based upon law, through which all things are to be determined. We are creatures of environment, and the adjustment is not always the highest. Relatively a man may be moral, but absolutely he may be wrong. There are four great corner stones of moral conduct, which are sure to be right, and which always bring pleasure to well doing: First, knowledge; second, sympathy; third, responsibility; fourth, freedom. Either alone will not lead to moral acts. They must be taken together in a normal relation. Sympathy without knowledge is narrow; knowledge without sympathy does not give pleasure. Where there is no responsibility there is a low state of moral character. Responsibility suggests freedom, a condition of freedom and freedom is a difference between freedom and license. License is a willing disobedience to law; freedom is a willing observance of law.

Approval is an acknowledgment which encourages to well doing. When thus used it is moral, otherwise it is grossly immoral. Disapproval with sympathy for the result of acts is moral and is bound to be accompanied with good to the individual.

The contrasts of the four corner stones, ignorance, antipathy, indifference and artificial restraint, cannot be condemned too strongly, as they lead to pain and moral degradation.

The applause given to Professor Stewart at the close of his series of instructive lectures was an approbation that showed he had gained the sympathy and love of the teachers of Weber county. It was further demonstrated by a vote of thanks passed in connection with the rest of the instructions.

LOST HER POCKETBOOK.
